From the Co-ordinator's Desk:

Deepawali was celebrated with love and simplicity lighting the lamp of peace & serenity to sooth and enlighten the mind. Here's what i understand about Diwali. To burn the lamp we need fuel, this actually represents the six enemies of mind
Kama - Lust,
Krodha - Anger,
Lobha - Greed,
Moha - Attachment,
Mada - Pride,
Matsara - Jealousy,
The wick of ego burns these six enemies to spread the light of love, happiness and growth. With this growth mindset we begin the new year. We succeed only when we allow ourselves to grow every single day.

The victory of good over evil is this victory within our selves that we need to celebrate every Diwali. I wonder how subtly our ancestors have created this mechanism of introspection through festivals.

Happy Diwali, or should I say happy growing?
